RE: Spring 2011 IUPUI Fraternity & Sorority Academic Report

An integral component of Fraternity and Sorority Life is the academic achievement and success of our members, individual chapters and the community as a whole. To help measure this, the Fraternity and Sorority Life began producing the IUPUI Fraternity & Sorority Academic Report each semester. This report provides GPA averages for each chapter and provides information on how affiliated fraternity and sorority students rank in comparison to their IUPUI undergraduate peers. Chapter rankings are based on the semester GPA average of the active members. For privacy purposes, chapters or new members classes with fewer than two individuals are not ranked in this report.

In its entirety, this report will be broken down into three sections listed below:

- Community View: provides a snap shot of where the Fraternity and Sorority Community is achieving academically
- Active Member View: provides a more in-depth look at how each chapter is achieving academically
- New Member View: provides information on the academic performance of a chapter's and the community's new members

It is important to note that a number of chapters at IUPUI are city wide with active student members who are enrolled at other intuitions. Due to this dynamic, the information in the academic report only reflects the information attainable for IUPUI students unless otherwise provided by the chapter's advisor. Therefore, this report may not be an entirely accurate picture of a chapter's collective performance. Please see the key below to identify our city based chapters.
